Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This office action is in response to applicants' communication filed on February 23, 2007. Amendments to claims 16, 57, 67, 83, 97-101, 103-108 and 110 have been entered. Claims 16, 25, 26, 57, 59, 60, 67, 69, 70, 83, 85, 86 and 91-120 are pending in the application. Claims 25, 26, 59, 60, 69, 70, 85, 86, 92, 93, 95, 96, 99-101, 106-108, 113-115 and 118-120 are withdrawn from consideration as being drawn to non-elected species. Claims 16, 57, 67, 83, 91, 94, 97, 98, 102-105, 109-112, 116 and 117 have been examined. The rejections and response to arguments are stated below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 16, 57, 67, 83, 91, 94 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 16, and 57 recite the limitations "qualifying the trader, based on the quantity of orders, for an incentive, in which the incentive provides the trader with a period of exclusivity during which only orders from the trader are processed; and processing orders placed by the trader in exclusion of other orders during the period of exclusivity". It is not clear if processing orders placed by the trader in exclusion of other orders during the period of exclusivity is done regardless of the outcome of the qualification step or if it is done based on the outcome of the qualification step. The scope of the claim is not clear when the trader does not qualify for the

incentive. Appropriate correction/clarification is required. Claims 91 and 94 are rejected by way of dependency on a rejected independent claim.

Claims 67 and 83 recite the limitations “qualifying the trader, based on the quantity of orders, for an incentive, in which the incentive provides the trader with a period of priority during which orders place by the trader are processed in advance of other orders placed by other traders; and processing orders placed by the trader in advance of other orders during the period of priority”. It is not clear if processing orders placed by the trader in advance of other orders during the period of priority is done regardless of the outcome of the qualification step or if it is done based on the outcome of the qualification step. The scope of the claim is not clear when the trader does not qualify for the incentive. Appropriate correction/clarification is required.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 97, 98, 102-105, 109-112, 116 and 117 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory Subject matter.

35 USC 101 requires that in order to be patentable the invention must be a "new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof" (emphasis added).

Claims 97, 98, 102-105, 109-112, 116 and 117 are rejected under 35 U.S.C. § 101 for failing to produce useful, concrete and tangible result. Claims 97, 98, 102-105, 109-112, 116 and 117 recite the step of “qualifying the trader for an incentive” that doesn't ensure anything real world, so it lacks tangibility. The description of the incentive (the incentive provides the trader

Art Unit: 3692

with a period of exclusivity during which orders from the trader are placed in advance of other trader's orders and a period of priority during which orders place by the trader are processed in advance of other orders placed by other traders) do not guarantee that a trade actually takes place. The steps of qualifying the trader for an incentive do not require a response. Arguably this is not useful, as merely qualifying the trader for an incentive doesn't yield anything specific and substantial.

The Court of Appeals for the Federal Circuit issued opinions in *State Street Bank & Trust Co. v. Signature Financial Group Inc.*, 149 F. 3d 1368, 47 USPQ2d 1596 (Fed. Cir. 1998) and *AT&T Corp. v. Excel Communications, Inc.*, 172 F.3d 1352, 50 USPQ2d 1447 (Fed. Cir. 1999). These decisions explained that, to be eligible for patent protection, the claimed invention as a whole must accomplish a practical application. That is, it must produce a "useful, concrete and tangible result." *State Street*, 149 F.3d at 1373-74, 47 USPQ2d at 1601 02. To satisfy section 101 requirements, the claim must be for a practical application of the § 101 judicial exception, which can be identified in various ways: (a) The claimed invention "transforms" an article or physical object to a different state or thing. (b) The claimed invention otherwise produces a useful, concrete and tangible result, based on the factors discussed below.

The USPTO's official interpretation of the utility requirement provides that the utility of an invention has to be (i) specific, (ii) substantial and (iii) credible. See MPEP § 2107.

The tangible requirement does require that the claim must recite more than a § 101 judicial exception, in that the process claim must set forth a practical application of that § 101 judicial exception to produce a real-world result. *Benson*, 409 U.S. at 71-72, 175 USPQ at 676-77 (invention ineligible because had "no substantial practical application"). The final step of

Art Unit: 3692

“qualifying the trader for an incentive” does not produce a real-world result. As discussed above the description of the incentive (the incentive provides the trader with a period of exclusivity during which orders from the trader are placed in advance of other trader’s orders and a period of priority during which orders place by the trader are processed in advance of other orders placed by other traders) do not guarantee that a trade actually takes place or that the incentive is utilized. The steps of qualifying the trader for an incentive do not require a response.

For an invention to produce a “concrete” result, the process must have a result that can be substantially repeatable or the process must substantially produce the same result again. In re Swartz, 232 F.3d 862, 864, 56 USPQ2d 1703, 1704 (Fed. Cir. 2000) (where asserted result produced by the claimed invention is “irreproducible” claim should be rejected under section 101). The opposite of “concrete” is unrepeatable or unpredictable.

There is no useful, concrete and tangible result produced from implementing the steps of the claimed invention. The dependent claims are rejected for the same reason and by way of dependency on a rejected independent claim.

Response to Arguments

6. Applicant's arguments with respect to pending claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
